

## LIGO Presentation

The Laser Interferometer Gravitational-Wave Observatory (LIGO) Project will begin construction this year on the DOE Hanford Reservation. Contracts totaling an estimated cost of \$15M to \$20M will be awarded in the future to complete the construction project. To familiarize local businesses and labor unions with the upcoming construction and operational activities LIGO will host a presentation at the Tower Inn in Richland WA, on 21 February, 1996 at 10:00 AM. All interested Parties are welcome.

For planning purposes we are interested to know the number of attendees. Please call or leave a message for Otto Matherny at 818-395-3186, or e-mail: otto@ligo.caltech.edu, or mail a postcard to:

California Institute of Technology  
LIGO Project M.S. 51-33 Attn.: Otto Matherny  
1201 E. California Ave.  
Pasadena CA, 91125

The following agenda will be presented

Introduction (What is LIGO?)  
Vacuum System  
Detector System  
Conventional Construction  
Question/Answer Session
